Targus®

Seamless Connections
Connect It All with Targus Docking Solutions

Today's enterprises consist of a wide range of computer hardware platforms, software applications, and operating systems. Add in hoteling, hot desking, and any other flexible work environments – and you have a challenge for IT administrators who seek to accommodate this diverse workplace. If your goal is to maximize efficiency and productivity, a Targus docking solution can meet your most demanding requirements.

Why Targus for Docking?

Truly Universal Compatibility

Imagine the simplicity of having one docking station that works for your entire enterprise – supporting USB Type-A or USB Type-C devices (or both!) and working across all major platforms. As the global leader in docking, Targus is uniquely equipped to make it happen. Our universal docking solutions are fully tested and proven to work with Mac® and PC platforms, as well as Chrome™ OS, Android™, and Linux® operating systems. This broad and flexible compatibility means you don't need to replace your docking solutions during every laptop or OS refresh – making Targus the preferred future-proofing solution.

But Not Every Dock Can Be Universal

As manufacturers are introducing USB Type-C connectors into their products, they're using it in various ways that are not always universally compatible – thus requiring an Alternate Mode (Alt Mode) dock. We know and understand that challenge. Our experts are on hand to navigate your needs and help you determine the optimal dock for your environment.

Follow the Fortune 1000

We're proud to say the biggest names in global business trust Targus – with over 90% of Fortune 1000 companies using our products. We've deployed more than 1 million universal docking stations around the world in more than 12,000 organizations – from financial and government to technology, real estate, and more.

Collaboration at the Core

We believe the best solutions are driven by intelligent innovation combined with great collaboration. That's why we work closely with all major technology vendors – including Apple®, Dell®, HP®, and Lenovo® – to ensure that our docking stations are rigorously tested to be truly universal and perform reliably from day one.

Don't be fooled by others who claim universal compatibility, but can't provide validation. Targus stands behind its claim of truly universal compatibility – with docks that are rigorously tested and proven to play nicely with everyone.

Proprietary Enterprise Software

Our exclusive software not only enhances security, but also improves the user experience on Windows®-based platforms. Features like Wi-Fi auto-switch, MAC address cloning, and storage of user settings are just a few reasons why our docking solutions are the top choice for mobile professionals.

Global Support

With Targus, your road to full productivity is easy — and one you don't need to traverse alone. Our global team of field applications engineers are there to provide complete pre- and post-deployment guidance to ensure your success and provide peace of mind.

Mobile-Minded from the Start

Thirty-five years and a history of firsts equips us, and you, to proactively prosper in an ever-evolving world. Over the past 15 years, we've channeled our expertise into solutions that now support the very latest advancements, including support for 4K video, USB-C, and Thunderbolt™ 3. Whatever the future may hold — whatever technologies may emerge — you can rest assured that global leader Targus will be right there leading the way.

Industry-Leading, 3-Year Warranty

We stand behind our product quality. Targus offers an industry-leading, three-year warranty, so you've got full confidence that our docking stations will perform — and continue to perform — to your full expectations for years to come.

All the Features You Need. Nothing You Don't.

Everyday Connections, Simplified

A single USB cable easily expands workstations with the addition of multiple displays and your go-to peripherals. So, there's no need to plug in accessories each time you come and go from your desk.

An Organized Workspace

Universal docking stations help free up desk space and keep cables tangle-free. Since a single connection links all your peripherals to your laptop, your workspace stays neat and organized.

Multiple Displays

It's faster and easier to switch between documents or view spreadsheets and other content side by side when you have two (or four) monitors instead of one. A Targus dual or quad display dock gives you more screen real estate to work with to help boost your productivity.

4K Video

Whether you're a video editor, create high-end content, or you just want to stream movies in ultra-high definition, a 4K-capable docking station is for you. You'll get four times the quality of 1080P high-definition views with 4K resolution.

USB-C Connections

As more enterprises make the move to USB-C technology – and even pure USB-C devices – our docking stations, adapters, and cables are built to support the transition to increased power and speed while providing backwards compatibility and 4K video capability.

Thunderbolt™ 3 Compatibility

Thunderbolt™ 3 compatible docks are ideal for the needs of rich content developers like designers, engineers, and animators who demand high speeds, pure image resolution, and zero latency. Simply plug in your peripherals and monitors to this high-performance dock, and take advantage of quality streaming at operating speeds of up to 40Gbps.

Power Delivery

Keep your adapter in the bag with a docking station that delivers power. You'll power up your laptop and smartphone with this dock, and there's no need to plug into an external power source every time you arrive at your desk.
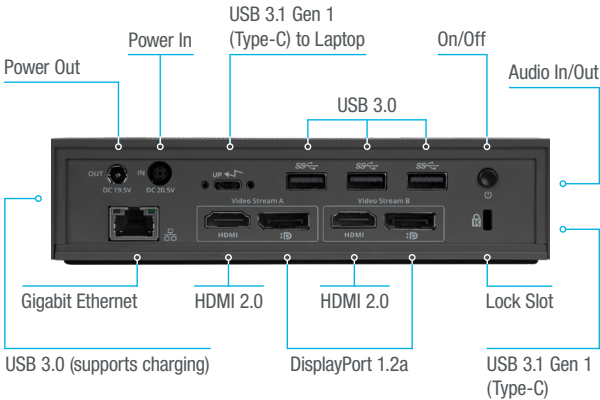

DUAL 4K USB TYPE-C WITH MORE POWER

DOCK190USZ | USB-C™ Universal DV4K Docking Station with 100W Power Delivery | $299.99

Designed for enterprises with USB Type-C laptops that need more power, the USB-C Universal DV4K Docking Station with 100W Power is the perfect choice for creating a high-performance, dual-display workstation. With universal platform compatibility, the capability to plug in two 4K monitors, and capacity to power and charge laptops up to 100W, it'll help keep your laptop, and your productivity, humming all day long.

Got a USB 3.0 Type-A laptop? No problem, a USB-C to USB-A adaptor is included. The DOCK190USZ also includes power tips to make the dock universally compatible with 19.5VDC laptops to 90W.

- Dual 4K2K up to 4096 x 2160 p60 24 bpp color video monitor support leveraging the DisplayLink® DL-6950 chipset
- Dual DisplayPort™ 1.2a++, dual HDMI 2.0, or one of each external monitor port
- Power Delivery up to 100W
- Thunderbolt™ 3 and DisplayPort™ Alternate Mode compatible

- 1 USB-C™ USB 3.1 Gen 1 device port
- 4 USB 3.0 ports for the latest peripherals (1 fast charging)
- 1 Gigabit Ethernet port
- Includes 1-meter USB-C™ to C host cable (detachable)
- Power tips included for Acer®, ASUS®, Compaq®, Dell™, Fujitsu®, Gateway®, HP®, IBM/Lenovo™, and Toshiba laptops

QUAD 4K UHD DISPLAY DOCK WITH POWER

DOCK570USZ | USB-C™ Universal Quad 4K (QV4K) Docking Station with 100W Power Delivery | $399.99

Maximize your view with the enterprise-class universal docking station to deliver 100W of power while supporting 4K UHD on up to four extended displays. Ideal for large enterprises - like brokerage firms, customer service organizations, even design studios - the DOCK570USZ maximizes your workstation, while delivering 100 watts of power to your laptop and brilliant images to your screen.

- Quad 4K displays via four DisplayPort (3840 x 2160 p60) or four HDMI (3840 x 2160 p50) ports (or combination of)
- Thunderbolt™ 3 compatible
- 1 USB-C with 100W Power upstream port
- 1 USB 3.1 Gen 1 (Type-C) port
- 4 USB 3.0 ports (1 fast charging) connect essential peripherals

- 1 Gigabit Ethernet port
- Includes USB-C to USB-A Cable – making non-USB-C laptops compatible with Targus USB-C docking stations
- Power tips included for Acer®, ASUS®, Compaq®, Dell™, Fujitsu®, Gateway®, HP®, IBM/Lenovo™, and Toshiba laptops

Optional Accessories		
USB-C to Card Reader Adapter ACA931BT | $24.99		1-Meter USB-C to USB-C 10Gbps Cable (Certified) ACC927USX | $22.99
2-Meter USB-C to USB-C 5Gbps Cable ACC928USX | $29.99		6ft HDMI (M) to DVI (M) Cable ACC973USZ | $17.99
Docking Station VESA Mount ACX003GLZ | $39.99		

QUAD HD DISPLAY DOCK
DOCK520USZ | USB-C Universal Quad HD Docking Station | $274.99

Boost productivity and performance with the world's first docking station to deliver four HD extended displays. Ideal for call centers, finance applications and entertainment — and anywhere multiple displays add efficiency — the Targus USB-C™ Universal Quad HD (QVHD) Docking Station maximizes workstation viewing by supporting four HD (1920 x 1080 p60) displays or two 2K (2560 x 1440 p50) displays. Wide compatibility with virtually any laptop ensures easy deployment and use with Thunderbolt 3™, Display Port Alt-Mode, and USB 3.0, 3.1 and Type-C devices.

- Quad HD (1920 x 1080 p60) displays or dual 2K (2560 x 1440 p50) displays via 4 HDMI ports leveraging DisplayLink® DL-3950 chip technology
- Thunderbolt™ 3 compatible
- 1 USB-C 3.0 Port with power (15W non-PD)

- 4 USB 3.0 ports (1 fast charging) connect essential peripherals
- 1 Gigabit Ethernet port
- Includes USB-C to USB-A Cable — making non-USB-C laptops compatible with Targus USB-C docking stations

Optional Accessories		
	USB-C to Card Reader Adapter ACA931BT	$24.99	1-Meter USB-C to USB-C 10Gbps Cable (Certified) ACC927USX	$22.99

	Docking Station VESA Mount ACX003GLZ	$39.99	

DUAL ULTRA-HD VIDEO PERFORMANCE WITH LAPTOP POWER

DOCK177USZ | Universal USB 3.0 DV4K Docking Station with Power | $269.99

The only USB 3.0 dual 4K video docking station to deliver integrated power and charging for most 19.5VDC laptops up to 90W, this solution can keep your laptop, as well as your productivity, humming all day long. With five USB 3.0 ports (including one that's high powered for charging devices and one that's Type-C), a Gigabit Ethernet port for fast internet connectivity, plus an Audio In/Out port for speakers, mics, or earphones, it's easy to customize your workstation. With charging tips nestled in a removable tray, the dock is designed to be compatible with a variety of laptop brands.

- Dual 4K2K up to 4096 x 2160 60Hz (p60) 24 bpp color video monitor support leveraging the DisplayLink® DL-6950 chipset
- Dual DisplayPort™ 1.2++, dual HDMI 2.0, or one of each external monitor port
- 19.5VDC PC laptop power and charging up to 90W
- 1 USB-C device port (USB 3.1 Gen 1 data only)

- 4 USB 3.0 Type-A ports (right side BC 1.2 fast charging up to 1.5A)
- 1 Gigabit Ethernet port
- Includes detachable 1-meter USB 3.0 micro-B to a host cable and detachable 1-meter DC host power and charging cable

Tips included inside

Gigabit Ethernet · USB 3.0 to Laptop · USB 3.1 Gen 1 (Type-C)
Power In / Power Out · On/Off · USB 3.0
Lock Slot · DisplayPort 1.2++ · DisplayPort 1.2

DUAL ULTRA-HD VIDEO PERFORMANCE
DOCK161USZ | Universal DV4K Docking Station with USB-C Adapter | $199.99

This USB DV4K docking station supports dual Ultra-High Definition 4K video over DisplayPort™ and HDMI. Perfect for tight spaces, the compact Universal DV4K Docking Station is compatible with USB-A and USB-C hosts*. Designed to support multiple host platforms and brands, this dock offers broad compatibility for a range of peripherals, devices, and dual video performance up to 4096 x 2160 p60 resolution.

- 2 DisplayPort™ (DP 1.2a++) and 2 HDMI (HDMI 2.0) ports
- Dual 4K Ultra HD video monitor support
- 1 USB-C 3.2 Gen 1 device port
- 1 Gigabit Ethernet port
- 4 USB 3.2 Gen 1 Type-A ports for the latest peripherals (1 fast device-charging port)

- Ergonomic wedge design to support host device airflow
- Includes 1-meter USB-micro B to A host cable (detachable)
- Includes USB-A to USB-C Adapter for USB-C host data/video capability (non-powered)
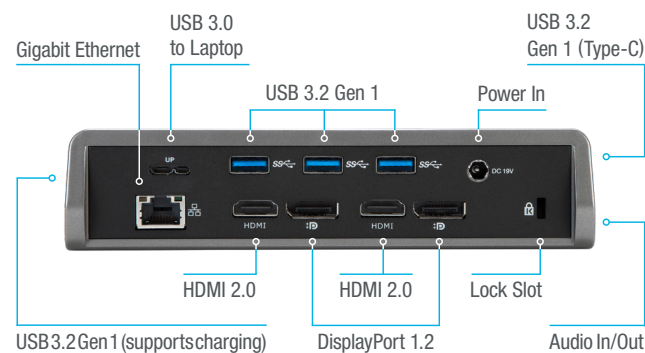

*Compatibility with USB-C host requires use of the included USB-A to USB-C Adapter for data/video (non-powered).

Optional Accessories			
	USB-C™ to Card Reader Adapter ACA931BT	$24.99		1-Meter USB-C™ to micro-USB B 5Gbps Cable ACC925USX	$21.99

ALTERNATE MODE TRAVEL DOCK
DOCK411USZ | USB-C DisplayPort™ Alt-Mode Travel Dock | $79.99

The USB-C DisplayPort™ Alt-Mode Travel Dock is an ultra-portable tool for serious mobile professionals and road warrior presenters. It's built to connect to the equipment you'll find on the road, like projectors and TVs. It leverages DisplayPort™ Alt-Mode native video so it'll connect with compatible USB Type-C DisplayPort™ Alternate Mode and Thunderbolt™ 3 hosts, and it supports up to 4K2K resolution.

- Host-powered 90 mm tethered USB-C DisplayPort™ Alt-Mode (compatible with Thunderbolt™ 3 host) connection
- VGA up to 2048 x 1152 60Hz or HDMI2.0 up to 4096 x 2160 30Hz 24 bpp monitor connection
- 1 USB 3.1 Gen 1 5Gbps (USB 3.0) Type-A port

ALTERNATE MODE TRAVEL DOCK WITH POWER PASS-THROUGH
DOCK412USZ | USB-C Travel Dock with Power Pass-Through up to 60W | $99.99

Make your mobile life easier with the USB-C Travel Dock with Power Pass-Through. Expand your laptop into a workstation by plugging in peripherals into the two USB-A ports, or easily connect to conference room displays when you set up for the big presentation. It also passes power from your power adapter to the host computer (which is great if your laptop has only one USB-C port!). It has pro cable management, too — just place the cable into its designated slot and forgo it getting tangled or creating a mess in your bag.

- USB-C DisplayPort™ Alt-Mode host connection (compatible with Thunderbolt™ 3)
- VGA, Mini DisplayPort, and HDMI output video ports support projectors and HDTVs (single display)
- Power Delivery Pass-Through up to 60W

- Pigtail cable tucks away out of sight for easy transport
- 2 USB-A ports for peripherals
- 1 Gigabit Ethernet port

TARGUS PROPRIETARY DOCKING SOFTWARE

Targus' exclusive enterprise software suite enhances security and improves user experience on your Windows®-based platforms.

	Wi-Fi Autoswitch	Audio/Video Configuration	MAC Address Cloning
What it does:	Automatically disables/enables WiFi adapter when docked/undocked.	Automatically stores user icon and application window configurations used on external monitors. The settings are automatically restored the next connection to a Targus docking station.	Automatically clones the host MAC address onto a Targus docking station. Automatically disables WiFi adapter.
Why it matters:	Improves the user's network connection speed. Reduces unnecessary WiFi traffic.	Improves user satisfaction. Increases productivity.	Enables tighter security access controls for IT departments. Devices are connected at the fastest speed.

A SOLUTION FOR EVERY APPLICATION

Whether your mobile professionals work from home or in a hoteling, hot desk, or other shared-space environment, and whether you need a USB-C connector, Thunderbolt™ 3 compatibility, dual 4K monitors, or a dock to take on the go, Targus has a solution that can keep the entire team plugged in and productive, day in and day out.

Let us help you set the stage for higher efficiency and productivity.
