

AMM05TBUS | Targus Executive Stylus & Pen

The Targus Executive Stylus & Pen combines the functionality of a stylus with a built-in roller ball pen for traditional note-taking. Featuring a soft, durable rubber tip, this stylus makes it easy to take notes, draw, play games, or simply turn a page. Leaving no smudges or finger prints on device screen, this stylus provides typing comfort, accuracy and efficiency. Users can use the stylus with note taking applications, like Penultimate, for the ultimate high tech note taking. For traditional note-taking, stylus has an integrated roller ball pen for smooth writing. The tip of the stylus works with iPad, iPhone, iPod touch and other capacitive touch devices. With an elegant finish and a professional design, it is the perfect tool for any executive. The Stylus uses standard Parker Ballpoint refills which are 67mm long and approximately 2.3mm in diameter. These refills are inside many compact pens and multi pens.

Functionality - Allows users to type accurately and comfortably; soft, durable rubber tip won't scratch screen; functions as a roller ball pen for smooth writing and traditional note-taking; leaves no smudges or fingerprints

Compatibility - Works on all capacitive touch surfaces; use with iPad, iPod Touch, iPhone and other capacitive touch-screen devices; pen is compatible with Cross Roller Pen Refills
