

AKB32US | Targus Bluetooth® Wireless Keyboard for iPad®

The Targus Bluetooth Wireless Keyboard for iPad features an integrated ergonomic tilt to provide added comfort and avoid strain while typing. The keys provide tactile feedback to the user to help improve typing accuracy and speed. The Bluetooth wireless technology provides a clean, cable free workspace and quickly syncs to your iPad for immediate use. The keyboard features up to 7 months of battery life and includes a low power indicator light to let the user know when the battery is running low. Designed in black to match the front of the iPad, this keyboard is comfortable yet compact; sized for convenient travel.
