

*The network path was not found*

Exception Details: System.ComponentModel.Win32Exception: The network path was not found

An unhandled exception was generated during the execution of the current web request. Information regarding the origin and location of the exception can be identified using the exception stack trace below.

```
[Win32Exception (0x80004005): The network path was not found]

[SqlException (0x80131904): A network-related or instance-specific error occurred while establishing a connection to the data source. The server is not found or the client and server cannot communicate. This may be caused by a network problem, a firewall that is not configured properly, or the instance may not be running. (Microsoft SQL Server, 11.0.2100.5)
