

TSM043US | Targus 13.3" radius Vertical Messenger

The radius Vertical Messenger is designed to fit the 13.3" MacBook. The laptop compartment is cushioned with EVA molded material to make sure your laptop is protected while on the go. The interior workstation features a key clip and customized pockets designed specifically to fit your iPod®, Apple® mouse, remote and power adapter. The messenger includes a convenient back pocket to store files and other documents and also features locking zipper pulls to secure the laptop compartment at school, in airports, hotels and other crowded areas. The padded removable shoulder strap and carry handle provide comfortable carrying options while the waterresistant material keeps belongings dry during wet weather. The vertical messenger features a slim design which is easy to carry and includes plenty of space for your MacBook and Apple accessories
