

Server Error in '/pdfviewer' Application.

The network path was not found

Description: An unhandled exception occurred during the execution of the current web request. Please review the stack trace for more information about the error and where it originated in the code.

Exception Details: System.ComponentModel.Win32Exception: The network path was not found

Source Error:

```
An unhandled exception was generated during the execution of the current web request. Information regarding the origin and location of the exception can be identified using the exception stack trace below.
```

Stack Trace:

```
[Win32Exception (0x80004005): The network path was not found]
```

```
[SqlException (0x80131904): A network-related or instance-specific error occurred while establishing a connection to the data source. Please refer to the SQL Server error log for more details and to the article "SQL Server Error Messages - Database Engine Errors" (https://msdn.microsoft.com/library/ms189733.aspx) for more information.]
