

## PA450U | DEFCON KL

The DEFCON KL (Key Lock) is a sturdy locking device featuring a 1.82m steel cable, with a pass through loop on one end, and lock on the other end. Any attempts to remove it, will noticeably damage the computer, preventing resale and therefore discouraging theft. The lock utilizes the security slot already built into your notebook computer, and attaches to the notebook using the same method as the DEFCON CL (Cable Lock). The Key Lock also ships with 2 identical keys, giving you the peace of mind of a back-up key.

Protects Your Notebook Computer with the Turn of a Key

Additional keys can be cut by a master locksmith from the original key

Conveniently utilizes the security slot already built into your notebook computer

Sturdy 1.82m steel cable- Any attempts to remove it, will damage the computer, preventing resale and discouraging theft

Comes with 2 identical keys, giving you peace of mind of having a back-up
