

TSB700 | Rolling Laptop Backpack

Targus' first Rolling Notebook Backpack combines the best of both worlds. At first glance you can see that it is a stylish, durable backpack with plenty of features but look a bit closer and you can see that it is also a roller. The TSB700 glides on in-line skate wheels and includes a 2-tier telescoping locking handle for easy navigation. A protective rear flap holds the shoulder straps in place when using it as a roller, then lower the flap to cover the wheels for greater comfort when in backpack mode. For additional convenience it has a handle grip on the bottom of the case that allows for easy lifting into your car or an airline overhead compartment. Other features include a padded, removable slip case for notebooks with up to 15.6" screens, top front pocket with protective lining for iPod/MP3 players, PDA or sunglasses, bottom front pocket with business card holder, pen loops and key clip, a main compartment with plenty of file and accessory storage, a large side pocket, even a side mesh water bottle holder. Stylish, practical and ready to go, this case has it all.

Storage options throughout the backpack

Rear protective flap holds shoulder straps in place so straps are secure when the case is used in roller mode

Removable slip case fits notebooks with screen sizes up to 15.6"

Padded handle and shoulder straps for ease of transport

Handle grip on the bottom of the case allows for easier lifting into the car or airline overhead compartment

Protective PVC material on bottom of case repels water
