- 1. Locate the center of your fingerprint.**
It's just opposite the base of your fingernail...

...on the underside or "pad" of your finger.

- 2. Locate the center of the DEFCON Authenticator.**

- 3. Place your finger on the center of the Authenticator. Press down momentarily until the sensor has scanned your finger.**

Match the center of your fingerprint to the center of the Defcon Authenticator

- 4. Be sure to position your finger correctly.**

Incorrect

Correct

Do not point at the sensor, lay the "pad" of your finger flat across it.
