

AWE05EU | Targus Ergo D-Pro Laptop Stand

The Ergo D-Pro Notebook Stand has multiple tilt positions to hold your notebook in a vertical position to allow the notebook LCD to be used as the display. The height adjustment feature ensures you position the LCD screen in the most ergonomic position for your eye-line. Additional features include a compartment that can store a mobile docking station or USB hub and a document holder which is positioned directly in front of the notebook user. A rotating base is also included to allow you to share your notebook screen with someone sitting next to you. Compatible with all PC and Mac notebooks up to 17". Must be used in conjunction with a separate keyboard.

Awarded Ergonomic Excellence by the Furniture Industry Research Association

Allows notebook screen to be raised to varying positions to suit individual user eyeline

Allows loose papers to be neatly placed at the correct eyelevel

Allows the user to secure notebook stand and peripherals. Compatible with the Targus Video Port Lock

When used with the Targus Mobile Docking Station, Keyboard and Mouse. External keyboard will be required to use your notebook in this position

Allows more than one person to view the notebook at any one time

Provide optimum notebook cooling
