## Company Background

For over 22 years, Targus, Inc. has been recognized as both the world's best-selling notebook carrying case and mobile accessories brand. Our goal is to provide our customers with unrivaled quality, superior service and access to the Targus brand wherever and whenever needed.

## Global Expertise

As a truly global enterprise, Targus has 45 offices worldwide. With direct distribution in over 145 countries, our corporate customers enjoy timely product delivery to any location in the world.

Targus Corporate Office Locations Include: Africa, Asia, Australia, Canada, Europe, Latin America, Middle East and the United States.

Targus Customers Include: Fortune 500 corporations, government and educational institutions, major retailers, consumers and eight of the world's top ten notebook computer manufacturers.

Our relationships with our private-label PC partners are especially important to Targus. We take pride in our long-standing partnerships with companies like HP, Lenovo, Toshiba and Dell. The relationships forged in this important sector have secured our position as the preferred supplier of private-label cases and accessories around the world.

## We've Got You Covered

Targus prides itself on delivering a full complement of mobile accessories and cases designed to enhance your mobile life while working, traveling and playing. We understand that your mobile lifestyle depends on having uninterrupted access to your computing and communication tools. Our #1 selling line of professional notebook cases ensure the protection of your notebook while allowing you to express your individuality. Targus' case line includes a wide range of carrying cases, backpacks and rollers to protect your notebook along with cases for cameras, MP3 players, DVD players and camcorders.

Note: Cases and accessories marked with a red globe symbol in this brochure are products that are offered in all of our main regions throughout the world.

## Notebook Protection and Quality

Targus is constantly raising the bar for quality notebook protection and security. The Targus patented SafePORT® Air Cushion System and patent-pending Dome Protection System™ offer the highest protection possible for your notebook.

## SafePORT® Air Cushion System

The SafePORT® Air Protection System combines vented air cushioning and high-density foam padding in a single chamber. These specifically engineered polyurethane cushions line the bottom and sides of the notebook compartment for side and vertical impact protection. SafePORT® cushions float the notebook inside the chamber ensuring a snug fit while protecting against damage due to shifting. We equipped our first case with the SafePORT® Air Cushion System in 1997, and since then continue to refine the system creating a truly protective environment for your notebook.

## Dome Protection System™

The Targus Dome Protection System™ (DPS) stands as another forward-thinking innovation in protection for Targus notebook cases. The DPS™ is a series of layered, shock-absorbing circles inserted into the walls of the notebook case, helping to minimize screen abrasions and cracks. Targus developed this system as customers cited increased interest in a technology that would help to minimize scratches and cracks to their notebook screens.

These two protection systems are offered in many of our case lines to ensure the safety of your notebook.

## Global Support

Targus has built a complete global support structure with sales associates located throughout the world. With offices in 45 different countries, we are entrenched in the attitudes and lifestyles of each region. Our understanding of cultural diversity and our ability to meet the specific needs of each region is what makes Targus a truly global organization.

In addition to 45 global offices, Targus offers customer service in local languages throughout the world. And for our large corporate customers, the Targus Worldwide Global Customer Program provides additional support services.

## Our Guarantee

What makes Targus cases and accessories stand apart? Years of quality manufacturing experience, innovation and customer feedback help to develop each of our case and accessory products.

At Targus, we craft cases that will endure the demands of our customers' schedule without losing their stylish appearance. That's why we take pride in our Lifetime Guarantee for all of our Targus branded notebook cases.

Today's mobile lifestyle depends on being able to function anywhere and anytime. Targus understands these needs and delivers cases and accessories designed to make your life a little easier.

Weight: 10 lbs

TER004US

fits up to  
**15.4"**  
notebook

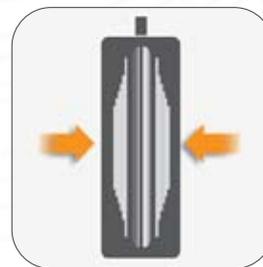

## Global Executive

## protection features

### Ultimate Notebook Protection

#### Dome Protection System™\*

A system of layered, shock absorbing circles which are inserted into the walls of the notebook case to disperse weight and reduce scratches caused by the screen being forced into the keypad.

#### SafePORT® Air Cushion System\*\*

A single chamber combines vented air cushioning and high-density foam padding. These specially engineered adjustable polyurethane pillows "float" the notebook inside the case providing both side and vertical impact protection.

\*U.S. and Foreign patents pending

\*\*Protected by U.S. patents: 6,131,734 (09/235,292), 6,334,533 B1 (09/679,599), 6,334,534 B1 (09/679,600)
